

FINANCE AI EMPLOYEE

**YOUR AP, AR, AND THE CLOSE RUN
AUTONOMOUSLY, WITH HUMAN-IN-COMMAND.**

Pre-built AI Employees for Finance that ingest invoices, remittances, and vendor docs, reason against your policies, reconcile against PO/GRN/contract, and post to your ERP touchless. Your team approves what matters; everything else flows through end-to-end with full lineage.

MEET THE AI WORKFORCE

AI EMPLOYEE · 01

AI AP Analyst

HOW AN AI EMPLOYEE RUNS A TRANSACTION

WHY SUPERVITY, NOT ANOTHER AI TOOL

AI Employees, Not Chatbots

You manage them like new hires. They reason, ask for clarification, escalate cleanly - Human-in-Command, by design.

Clean Core SAP Integration

No custom code in your ERP. Standard APIs and IDocs - your SAP roadmap stays clean, your audit surface stays small.

Glass-box Auditability

Every posted entry traces to source data, policy applied, and reasoning - SOX and external audits stop being a fire drill.

AUTONOMOUS · AUDITABLE · ALWAYS LEARNING
Every cycle compounds into the Auto Graph
